

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	
Project Name	House Rent App
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form, Gmail, LinkedIn
FR-2	User Authentication	Login via email/password, OTP validation
FR-3	Property Listing	Owners can add properties with images, price, and location
FR-4	Search and Filtering	Users can search properties by location, rent, and amenities
FR-5	Booking System	Users can request a booking; owners can approve/reject
FR-6	Direct Messaging	In-app chat between property owners and seekers

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Responsive UI for desktop and mobile devices
NFR-2	Security	JWT based authentication and hashed passwords
NFR-3	Reliability	99.9% uptime with automated database backups
NFR-4	Performance	Fast image loading and API response under 2 seconds
NFR-5	Availability	Hosted on cloud platform for high availability
NFR-6	Scalability	Scalable NoSQL database (MongoDB) and microservices architecture
