

Ideation Phase

Empathize & Discover

Date	10 July 2026
Team ID	
Project Name	HouseHunt
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Reference: <https://www.mural.co/templates/empathy-map-canvas>

Example: Food Ordering & Delivery Application

SAYS - "I want a verified owner" - "Brokers charge too much" - "It takes too long to find a good place"	THINKS - "Is this listing fake?" - "Am I paying too much rent?" - "I wish I could talk directly to the owner"
DOES - Spends hours on multiple apps - Calls brokers and gets spammed - Visits properties that look different from photos	FEELS - Overwhelmed by choices - Frustrated by fake listings - Anxious about security deposits
