

Ideation Phase

Empathize & Discover

Date	31 January 2025
Team ID	
Project Name	House Rent App
Maximum Marks	4 Marks

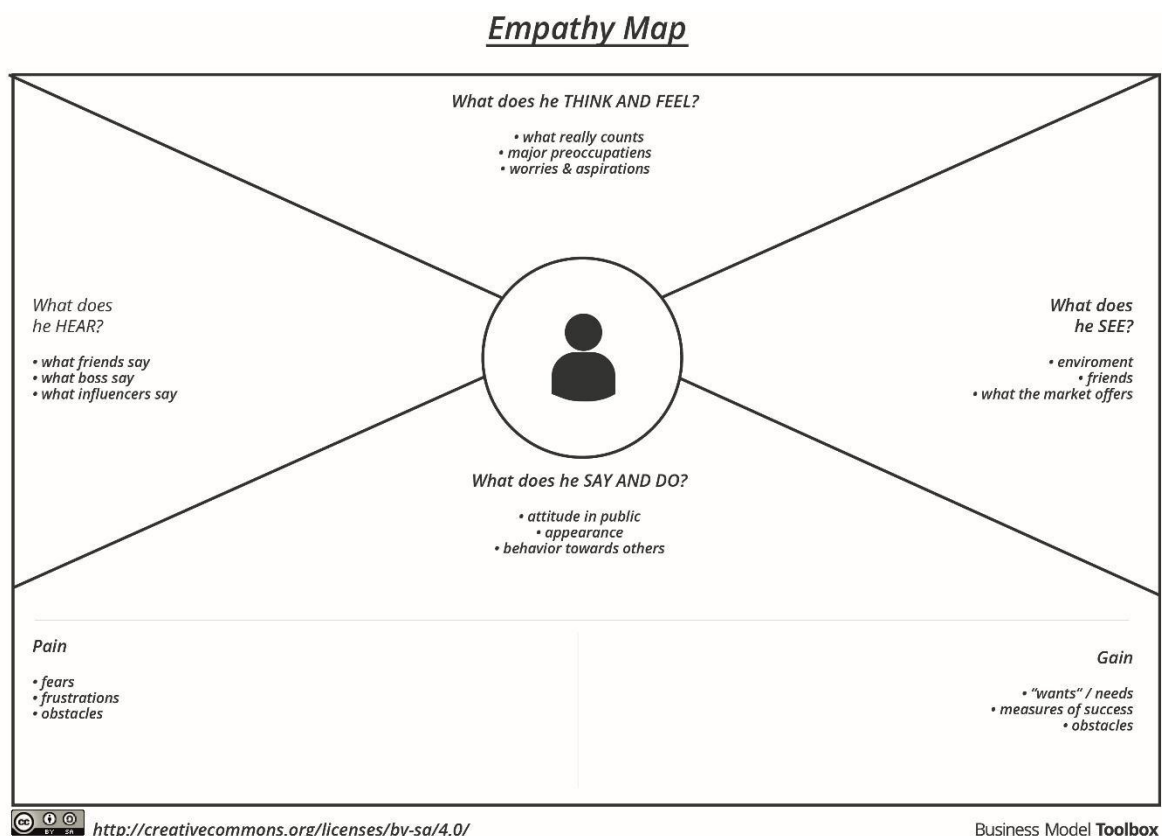

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

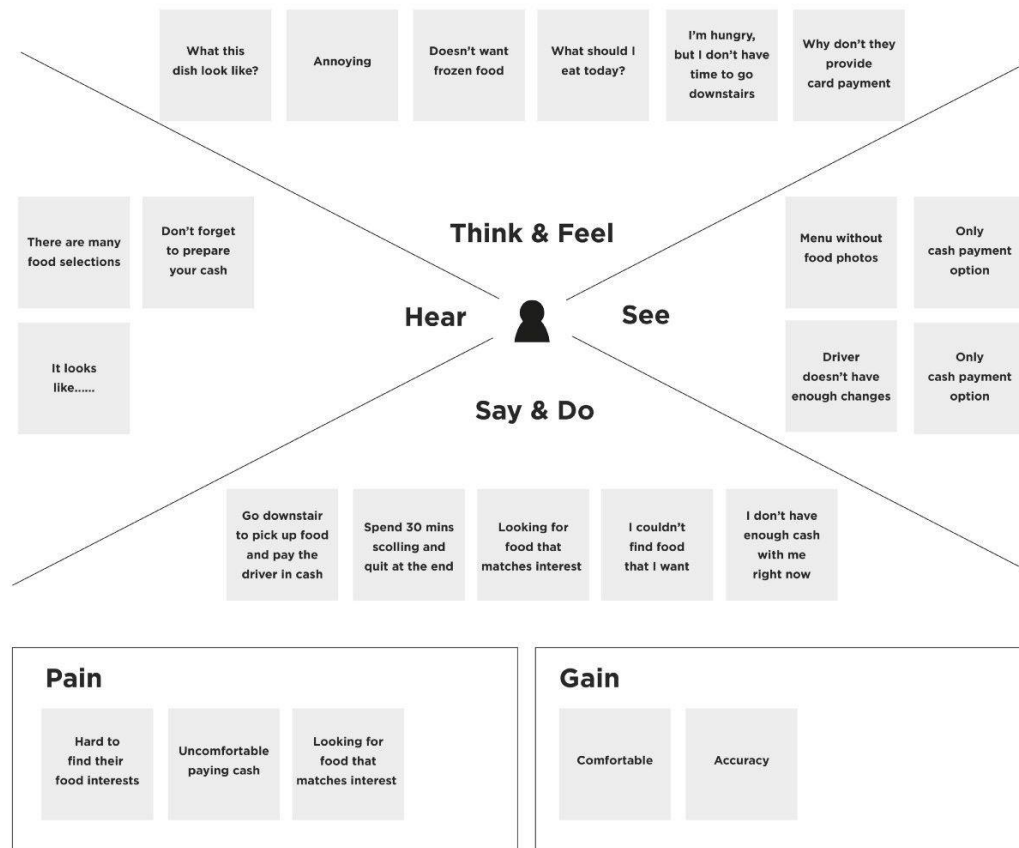

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Example: Food Ordering & Delivery Application

Empathy Map Canvas - House Rent App

SAYS (What the user says)

- "I need a place close to work"
- "The rent is too high here"
- "I want to see the apartment before I pay"

THINKS (What the user thinks)

- "Is this listing real?"
- "Can I trust the landlord?"
- "Will I get my deposit back?"

DOES (What the user does)

- Spends hours browsing listings
- Compares prices across multiple apps
- Visits properties on weekends

FEELS (What the user feels)

- Overwhelmed by choices
- Anxious about scams
- Excited to find a new home

PAIN POINTS (Frustrations and challenges)

- Fake listings
- Hidden fees
- Unresponsive landlords
- Difficulty scheduling visits

GAINS (Goals and needs)

- Find a safe neighborhood
- Stay within budget
- Easy and transparent renting process
